COMPOSITE CLADDING AT ITS FINEST

Euro Seleкта Clad is a unique, pre-finished composite cladding façade with a beautiful timber-grain-embossed surface which ticks many boxes for fire certification. Designed for stability and longevity, Euro Seleкта Clad is eco-friendly and maintenance free.

Versatility

Euro Seleкта Clad combines the natural properties of wood, with the resistance of high-quality resins making the door a perfect choice for both fire prone areas and coastal areas. The versatility is offered in eight colours, as well as a wide range of specialty colours that can be pre-ordered as required.

Weather resistant

Together with many advantages offered by the Euro Seleкта Clad Garage door, the material has been subjected to a range of tests including environmental conditions and temperature fluctuations ranging between -30° and +70°C; extreme endurance tests including swell tests and paint flaking tests; under all tests the product had responded brilliantly and is estimated to outlast wind and weather for 30 years.

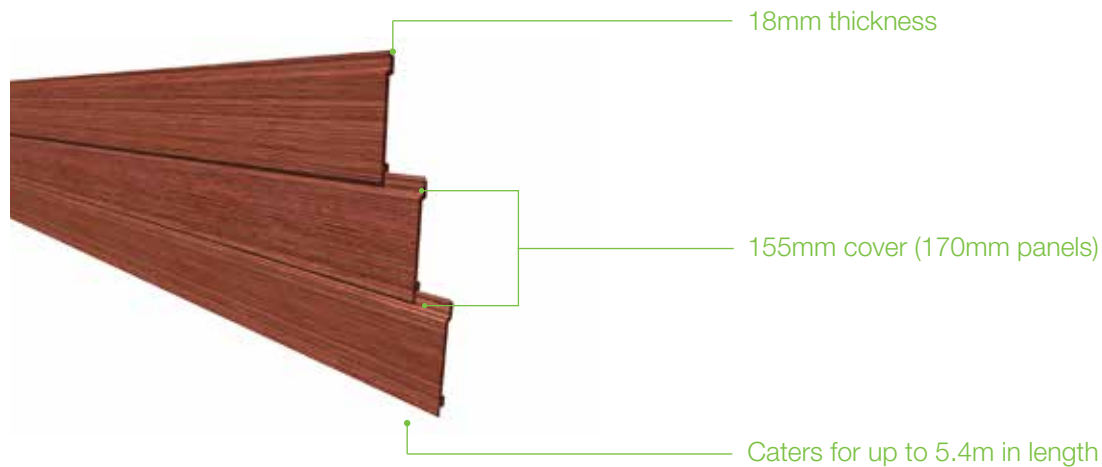

Fire resistant

Euro Seleкта cladding is approved to be installed on any building in a bushfire prone area rated up to BAL29*. *Subject to the Building Code of Australia.

Rot and pest resistant

Guaranteed not to rot, split, warp or check. Highly resistant to damage caused by termites and fungal decay.

EURO SELEKTA CLAD *Garage Doors*

FEATURES AND BENEFITS

Bushfire resistance

(AS/NZ 3837).

Now Euro Selekt cladding is approved to be installed on any building in a bushfire prone area rated up to BAL29*.

*Subject to the Building Code of Australia.

CodeMark certified

Independently verified to meet compliance requirements of the National Construction Code (Building Code of Australia).

Water resistant

Finely-chopped wood, with uniform, homogeneous structure and high-quality resins for strong bonding, guarantee the highly-compressed and dimensionally-stable material structure.

PEFC certified

Timber components sourced from PEFC Certified sustainably managed forests. Perfect for use in high-exposure or difficult-to-access areas.

Hidden fixing system

Simple tongue and groove fixing system with machined screw slots.

Non leaching

The only timber-look cladding that cannot leach as there are no tannins impregnated into the profile.

High Rw acoustic rating

Laboratory acoustic testing results available.

Rot and pest resistant

Guaranteed not to rot, split, warp or check. Highly resistant to damage caused by termites and fungal decay.
