ecogaragedoors Portabella Premium Timber Finish, a premium PVC pre-coated steel delivering a real timber look and feel designed to suit Australian climate conditions. Combining the world's best coil coating technology with rigorous testing to Australian Standards, it ensures superior performance in the harsh Australian environment preserving the door from corrosion and the harsh UV rays of the sun.

Available in six colours, the Portabella Premium Timber Finish delivers a realistic timber look and feel, without the maintenance of a real timber door and is available in both the Insulated Sectional and Panel-lift Safe Sectional garage door profiles.

FEATURES AND BENEFITS

CORROSION RESISTANT PRIMER

Athmospheric class C1–C3.

IMPACT RESISTANT

No loss of PVC adhesion after a test piece is struck on the reverse side with a specified force of 10J, in line with the test methodology AS/NZS2728:2013.

FIRE RESISTANCE

Meets the requirements of AS/NZS 1530.3 methods for fire tests on building materials.

HUMIDITY RESISTANCE

Humidity resistance - Meets the requirements of AS/NZS2728:2013 Sections 2.8 and 2.9.

SCRATCH RESISTANT

Tested in accordance with AS2331.4.7, with no less than 1.5kg weight applied to the test piece.

SALT SPRAY RESISTANT

Meets the requirements of AS/NZS2728:2013.

ADVANCED PVC COATING

The Portabella Premium Timber finish is made with a 180µm PVC precoated coil steel sheet delivering excellent durability. Meets the requirements of AS/NZS2728:2013.

Note: tested on a flat panel.

MAINTENANCE FREE#

Unlike real timber that needs to be conditioned and treated to withstand various weather conditions, the Portabella Premium Timber finish does not require regular maintenance besides standard cleaning.

refer to warranty maintenance

BEND TEST

No loss of adhesion or PVC cracking when bent around a diameter equal to five times the thickness of the sheet AS/NZS2728:2013 section 2.6.1 and Appendix F.

FINGER PROTECTION

Finger protection technology will safeguard your family against unforeseen circumstances. Each panel has curved edges to prevent anything, especially fingers, getting caught or trapped in each section as the door opens and closes.
